BUS & CAMPER

BODY and CHASSIS direct identification solutions

Technifor has developed a wide range of integrable, mobile and portable solutions, especially dedicated to the marking of any type of chassis:

Mark directly on the chassis

Ensure your vehicles are permanently marked

Chassis, frames, body parts, stringers, shock absorber cups... Technifor systems mark any type of part and any model of vehicle.

Mark with unique identifier

V.I.N. (Vehicle Identification Number), serial number, logo, Data Matrix™ code... Acquire data from central server database, PLC, barcode scan... and mark it automatically on your parts.

The ultimate traceability Send and store all pertinent information, read the marked data, perform deep marks that cannot be falsified during vehicle entire life cycle.

Integrate versatile and reliable systems

- **Intelligent** solutions that fully communicate with your plant network
- **Industrial, fast and quiet** solutions, easy to use and to integrate
 - ➔ Technifor systems have equipped worldwide major manufacturer's production lines for more than 25 years.

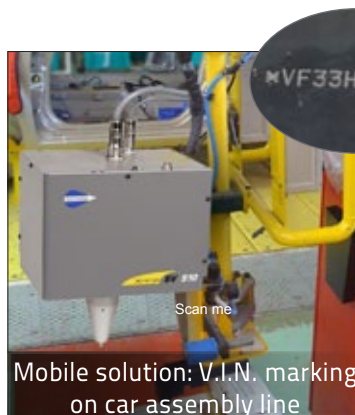

- Marking system and software
- On-site installation and training
- Local technical support
- Full manufacturer's warranty

Your benefits

- Optimized production
- Reduced integration costs
- Reliability
- Experience and support at your disposal

About Technifor... Technifor is the world's first manufacturer of Direct Part Marking machines for quality control, automatic identification and permanent traceability for metallic or plastic parts.

About our services... Around the world our ISO9001 - v2008 technical teams install and maintain our micro-percussion, scribing or laser systems for OEM, system integrators and factory floor across all industries.
