LOCK & KEY permanent identification solutions

Technifor has developed a wide range of integrable and station marking solutions to permanently identify information on key, padlock body, latches, door security systems, door hinge brackets, tags, cylinder body...

Improve performance and accuracy

Permanent highly legible marks and coding

High precision mark of any identification: serial numbers, part numbers, logos, DataMatrix™ codes, authenticity marks...

Clean marks: no burrs, no removal of material - **Durable marks:** withstands wear during use

Versatility

- **Mark any metal:** stainless steel, steel, silver, nickel, brass... and **any plastic:** ABS, PA...
- **Manage multiple files and logos:** single or multi-row marks, double-sided marks...
- **Identify any component:** Original Equipment keys, mechanic, electric & electronic locks for automotive, institutional, industrial, commercial & residential applications

→ Meet global standards, including UL, CE mark, A2P certification, BS EN 1303, etc.

Integrate automated identification

- **High quality marks in very fast cycle times:** meet increased production needs.
 - **Compact design:** easy installation in your key-cutting, finishing & lock assembly machines
 - **Robust and automated systems that communicate** with your central server, PC, PLC, barcode scanner...
- **Choose your solution:** integrable machine, column-frame system, semi-automated solution with rotary table, customized feeding system...

- Marking system and software
- On-site installation and training
- Local technical support
- Full manufacturer's warranty

Your benefits

- Cost-effective solution for manual, semi-automated or fully-automated production
- Reliable traceability & authenticity
- Reduced set-up time
- High output and minimum downtime

About Technifor... Technifor is the world's first manufacturer of Direct Part Marking machines for quality control, automatic identification and permanent traceability for metallic or plastic parts.

About our services... Around the world our ISO9001 - v2008 technical teams install and maintain our micro-percussion, scribing or laser systems for OEM, system integrators and factory floor across all industries.
